OBJECTIVE

Frontend Developer with hands-on experience in building responsive, scalable, and user-friendly web applications using React, Next.js, TypeScript, and modern UI frameworks. Familiar with backend fundamentals and API integration, and performance optimization to contribute to innovative, high-quality software solutions. Seeking to contribute to innovative, high-quality software solutions while continuously learning new technologies.

SKILLS

HTML • CSS • JavaScript • TypeScript • React • Next.js • Tailwind CSS • Material UI • PWA • NPM/Yarn • Redux Toolkit • React Query • Responsive Web Design • Context API • Chart.js, Recharts • SEO • Vercel • REST API Integration • Jest • React Testing Library • Cypress • Git, GitHub • Vite, Babel • Java • Python • SQL Server • Node.js • Express.js

PROFESSIONAL EXPERIENCE

Software Engineer, *Electronikmedia* 02/2025 | Kochi, India

PROJECT: Podiatry Residency Resource, **Role:** Frontend Developer

- Developed **responsive and scalable web pages** for modules such as Ordering, Order History, Invoice List, Ordering Duration, and Audit Logs using **React, Next.js, and Tailwind CSS**.
- **Integrated RESTful APIs** for dynamic data rendering and seamless communication with backend services.
- Implemented **state management** using **React Context API & Redux Toolkit** for consistent data flow and better user experience.
- Translated **Figma design mockups** into functional, interactive, and mobile-friendly UI components.
- Built and optimized the application as a **Progressive Web App (PWA)** to enable offline access, push notifications, and app-like user experience.
- Applied **performance optimizations** including lazy loading, code-splitting (**Vite + Babel**), and bundle size reduction for faster load times.
- Wrote **clean, modular, and maintainable code** following best practices.
- Collaborated using **Git workflows** (branches, pull requests, and code reviews).

PROJECT: AuraRock, Role: Frontend Developer

- Built **interactive dashboard pages** with reusable, modern UI components using **React, Next.js, TypeScript, and Tailwind CSS**.
- Designed and implemented **data visualizations** with **Chart.js, Recharts, and React Charts** to present real-time insights.
- Delivered **responsive and mobile-optimized layouts** for dashboards and analytics using **Tailwind CSS grid/flexbox utilities**.
- Implemented **state management** with **React Query** (for data fetching & caching) and **Redux Toolkit** (for UI & app state).
- Optimized frontend for **performance, scalability, and accessibility** across devices and browsers.
- Utilized **Vite, Babel, npm/Yarn** for faster builds, modern tooling, and developer productivity.

PROJECT: **Kreston Rangamani, Role:** Frontend Developer

- Developed and designed key website pages including **Global Presence, Sectors, and Services** using **WordPress**.
- Implemented **responsive and user-friendly** layouts to ensure compatibility across **devices and browsers**.
- Optimized website using PageSpeed Insights, achieving **98% Performance, 98% Accessibility, 96% Best Practices, and 61% SEO**.
- Improved **website loading speed** through **image optimization, caching, and code minification**.
- Enhanced accessibility by following **WCAG standards and improving semantic HTML structure.**
- Maintained and updated **WordPress themes and plugins** for **security and performance**.

PROJECT: **EM Hub : Onboarding, Role:** Frontend Developer

- Developed **organizational management** modules including **Horizontal, Vertical, and Network charts** using **React and custom CSS.**
- Designed **Assign Manager and Mass Transfer modals** for efficient employee hierarchy management.
- Built interactive **UI components** with zoom, scaling, and navigation features.
- Created a **Generate Letter module** with PDF, Docx and Email preview functionality.
- Implemented dynamic UI elements such as **custom dropdowns, forms, tables, and modals.**
- Integrated routing for smooth multi-page onboarding and document workflows.
- Ensured consistent UI/UX using reusable styles and design standards.
- Collaborated with **backend and stakeholders** to deliver business-ready features.
- Maintained **scalable, readable code** following **React best practices.**

Web Developer Intern, *Unibotix Innovations* 01/2025 – 02/2025 | Trivandrum, India

- Built and maintained responsive, interactive web pages using **HTML, CSS, and JavaScript**.
- Collaborated with the team on design, testing, and performance optimization.

TRAINING AND CERTIFICATION

- **Software Testing Course, ROGERSOFT Technologies**

Skills: Manual Testing, Automation Testing, Selenium, Selenium WebDriver, TestNG, Maven, Appium, Java, JMeter, Jira, SQLServer.

- **Learn Complete Front-End Web Development Course (2023) -** *UDEMY*

EDUCATION

- **Rajagiri School of Engineering and Technology Autonomous, Kochi | B.Tech(AEI) [2018-2022] |** CGPA - 7.7
- **Mar Thoma Public School, Kochi | 12th class CBSE - PCM [2017-2018] |** Grade 68.6%
- **Mar Thoma Public School, Kochi | 10th class CBSE [2015-2016] |** Grade 75%
